

Samantha Gan

samantha_gan@sfu.ca • (604) 615-0912 • Port Coquitlam, BC •

Skills

Programming Languages: Python, C, Java, JavaScript, HTML/CSS

Tools: Microsoft Office, Matlab, Git, LaTeX

Technical Projects

Tour Story

October 2025

- Developed prototype features that allowed consumers to take, upload, and scan photos of landmarks, generating historical and cultural narration
- Collaborated in a team of 4 to brainstorm, debug and deliver a functional project within a 24-hour hackathon timeframe
- Built a working mobile application using Expo Go, TypeScript, and HTML/CSS to enhance travel experiences

Cupid's Quill

February 2025

- Utilized Deepseek API to generate a love letter based on user input
- Cooperated with 3 other first-year students by learning and working together to create Cupid's Quill within 12 hours
- Utilized technologies such as Python and HTML/CSS to develop a cohesive product

Study Café

May 2024

- Created a productivity website to help students stay focused while studying by learning and programming using JavaScript and HTML/CSS
- Presented Study Café to a group of 30+ people, receiving a top score within my presenting group

Leadership Experience

Computing Science Student Society

May 2025 - Present

Director of Events

Burnaby, BC

- Organized a hackathon for 200+ university students, creating an environment for 40+ groups of participants to create and present their projects
- Collaborated with other clubs to plan social events, communicating effectively by dividing work, making timelines, and ensuring efficient teamwork throughout the planning process
- Facilitated biweekly large-group meetings for Events Committee by encouraging idea sharing for upcoming student events

Education

Simon Fraser University

September 2024 - Present

Bachelor of Applied Science, Computing Science

Burnaby, BC

École Dr. Charles Best Secondary School

September 2020 - June 2024

Honour Roll with Distinction

Coquitlam, BC

Applied Design, Skills, and Technologies District Authority Award
