EDUCATION

Simon Fraser University

Bachelor of Applied Science in Computing Science

Burnaby, BC

Sep. 2024 – Present

- Cumulative GPA: 3.58/4.33, Dean's Honour Roll

PROJECTS

Unix Shell Implementation | C, POSIX System Calls

Jun. 2026

- Built a Unix shell in C using fork/exec/waitpid, supporting foreground and background process execution while reaping zombie processes through a non-blocking waitpid loop
- Implemented signal-safe SIGINT handling and internal commands (cd, pwd, history, help, exit) restricted to async-signal-safe system calls
- Designed a 10-command history feature supporting !n and !! recall syntax, re-executing commands without re-adding the lookup command itself

Meowmino's Delivery | Java, LibGDX, Maven, Mockito | GitHub

Apr. 2026

- Engineered gameplay mechanics including player abilities, collision logic, and a multi-tiered point system for a 9,000-line game built by a 5-person team over a 4-month Waterfall cycle
- Integrated LibGDX rendering pipeline for sprite management, asset loading, and real-time level transitions across 3 game levels, directly contributing to winning top-2 placement
- Achieved 80%+ test coverage writing 500+ unit tests with Mockito, enforcing code quality standards comparable to professional game studio pipelines

Tour Story | Expo Go, TypeScript, React Native, HTML/CSS

Oct. 2025

- Built a functional iOS/Android mobile application in 24 hours at a hackathon, enabling users to photograph landmarks and receive AI-generated historical and cultural narration
- Implemented camera and photo-upload features using Expo Go and TypeScript, demonstrating hands-on mobile development skills relevant to Android/iOS workflows

LEADERSHIP EXPERIENCE

President, Computing Science Student Society (CSSS)

May 2026 – Present

Simon Fraser University

Burnaby, BC

- Serve as the official voice of 3,000+ computing science students to SFU faculty, administration, and industry partners, directing funded club operations and student opportunities
- Coordinated outreach to SFU alumni across Silicon Valley to secure 6 office tours at Meta, Google, Apple, Discord, Intel, and LinkedIn for 25 students, managing all travel logistics end-to-end
- Drove CSSS rebranding and established Study Cafes and MACM Study Sessions to foster knowledge sharing and academic support across the computing science student community

Director of Events, Computing Science Student Society (CSSS)

May 2025 – Apr. 2026

Simon Fraser University

Burnaby, BC

- Directed Fall Hacks, a 200+ student hackathon, collaborating with sponsors and dedicated volunteers to create a competitive environment for 40+ project teams
- Oversaw 20+ technical and social events annually, coordinating cross-organization collaboration, setting timelines, and delegating tasks across a large team
- Led biweekly Events Committee meetings for a team of 10+, fostering collaborative idea-sharing and aligning on timelines in support of 60+ annual CSSS-wide student initiatives

TECHNICAL SKILLS

Languages: Python, C/C++, Java, JavaScript, TypeScript, HTML/CSS, SQL

Frameworks: React.js, Node.js, Next.js, JUnit, Mockito, Tailwind CSS

Game & Mobile Dev: LibGDX, Unity (familiar), Android/iOS (Expo Go), React Native

Tools & Platforms: Git/GitHub, Agile/Kanban, Jira, Linux, VS Code, Figma, Maven, Supabase
